

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) foods. I hope that the agency's current policies be changed, and to support all the people in the United States who are concerned about the safety of GE foods.

- ☒ All GE Foods should be labeled so I am informed and have a choice.
- ☒ GE Foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing
- ☒ There should be a moratorium on GE Foods until long-term studies show they are safe for human health and the environment.

(Additional Personal Comments:) *Please continue your good work to ensure we all have freedom of choice to buy healthy food for our family!*
